

Radio Microphone Frequency Ranges

TV Channel	Frequency (MHz)		Digital 9000					
	From	To	Antenna	Transmitters	Available Transmitters			
Interleaved Spectrum Available for PMSE use	41	630	A	Range A8 614-638 MHz 24 MHz	Up to 24 SK9000 and 8 SKM9000 available			
	40	622						
	39	614						
Shared Licence*	38	606					Range A7 590-614 MHz 24 MHz	
37	598							
Interleaved Spectrum Available for PMSE use	36	590					Range A6 574-598 MHz 24 MHz	Up to 16 SK9000 transmitters available
	35	582						
	34	574						
	33	566		Range A5 550-574 MHz 24 MHz				
	32	558						
	31	550		Range A4 534-558 MHz 24 MHz				
	30	542						
	29	534						
	28	526						
	27	518		Range A3 510-534 MHz 24 MHz				
	26	510						
	25	502	Range A2 494-518 MHz 24 MHz					
	24	494						
23	486							
22	478	Range A1 470-494 MHz 24 MHz						
21	470							

*Channel 38 Licences comes pre-programmed into each rack at no extra cost. Up to 14 frequencies can be used in this TV band providing there are no other analogue radios transmitting at the same time.

All other channels require an OFCOM PMSE licence. Go to <http://licensing.ofcom.org.uk/radiocommunication-licences/pmse/> for more information.
